## Fall Prevention TRAINING

**PHILAPOSH**  
Philadelphia Area Project on  
Occupational Safety and Health

### **WHAT IS PHILAPOSH?**

Philaposh (Philadelphia Area Project on Occupational Safety and Health) is the only organization in the Greater Philadelphia Area that makes worker safety and health the top priority. We are not a government agency and our strength lies in our diverse membership. We are a non profit 501(C)3 organization.

In 1975 concerned unions, workers, and legal and health professionals founded PhilaPOSH. We are an independent organization that works closely with health and safety professionals, local unions, employers, community organizations, and politicians to advance worker safety.

We provide training and research to member organizations, information to injured workers, and we hold an annual Workers' Memorial Day program.

Funding provided by the OSHA Susan Harwood Training Grant # SH16604SH7. Training program on fall protections and other general safety and health hazards for small residential construction contractors, including supervisors and employees.
